**Attachments:** Preproposal RH SIP\_EGU\_NOx\_Only.docx

All,

The ADEQ Office of Air Quality (OAQ) staff has prepared the attached Regional Haze SIP revision package solely to address NOx controls at the BART electric generating units. The SIP revision package is in pre-draft form and has not yet gone out for public comment. In the OAQ's ongoing efforts to work towards settlement, please accept this pre-draft as a courtesy. A separate SIP revision package is being developed to address and replace the remaining requirements, and a pre-draft will be provided once it is complete.

Thanks,

William K. Montgomery
